

EXCITO-ST

Description

EXCITO-ST 4-STAGE WATER FILTRATION UNDER-COUNTER SYSTEM, BY AQUAFILTER

Aquafilter offers EXCITO-ST 4-Stage Water Filtration System suitable for POU (Point of Use) installations. Through an accurate combination of pre-filtration, softening, activated carbon with special media and microfiltration treatments it ensures you a continuous supply of fresh and clean drinking water. Additionally, the installation of an additional in-line cartridge (e.g. ultrafiltration membrane, post-filtration carbon or ion exchanger) allows you the possibility of configuring your system according to your needs.

FEATURES:

- 20 micron-rating Sediment filter: AIPRO-20M-AQ (Stage 1)
- Softening cartridge: AISTRO-L-AQ (Stage 2)
- Granular Activated Carbon with KDF® media cartridge: AICRO-L4-AQ (Stage 3)
- 5 micron-rating Sediment filter: AIPRO-1M-AQ (Stage 4)

REPLACEMENT CARTRIDGES FOR EXCITO-ST ARE ALSO AVAILABLE.
