

FAUCET MOUNTED TAP WATER FILTER SYSTEM

Περιγραφή

The FH2018-1-AQ Faucet Water Filter in the Aquafilter AU-FOU Series is a universal faucet mount water filter with FC2018-1-AQ carbon cartridge.

Replacement cartridge FC2018-1-AQ adsorbs radon, haloacetic acids (HAAs), THMs and hydrogen sulfide (rotten egg) gas. Eliminates chlorine and chloramine disinfection chemicals that cause taste and odour problems. Removes Industrial organic chemicals, pharmaceuticals and VOCs that contaminate water sources. Strips out harmful metals like aluminum, lead and cadmium and copper.

Specifications:

- Turns ordinary tap water into purified, refreshing drinking water the entire family will enjoy
- Simple and ready to use in minutes and require no plumbing knowledge
- Turning the dial switches between filtered and unfiltered water
- Changing the FC2018-1-AQ filter cartridge is easy and requires no tools
- **Set includes:** universal faucet filter, cartridge and accessories
