

Spherical manifold nozzles

Περιγραφή

Fountain system with metal beams coming out of the center of the sphere. Water is sprayed creating a water aura around the system. Made of chrome-plated brass. It does not depend on its position on the water level.

ΤΕΧΝΙΚΕΣ ΠΡΟΔΙΑΓΡΑΦΕΣ

P90192: 3 "internal thread connection Sphere diameter 90cm, 61 rays Ø16mm Flow 610 ltr / min, pressure 4.8m

P90194: 3 "internal thread connection Sphere diameter 120cm, 85 rays Ø16mm Flow 850 ltr / min, pressure 5.4m

P90196: 4 "internal thread connection Sphere diameter 155cm, 112 radii Ø16mm Flow 1120 ltr / min, pressure 6.0m

P90198: 4 "internal thread connection Sphere diameter 180cm, 150 rays Ø16mm Flow rate 1500 ltr / min, pressure 6.6m

P90200: 4 "internal thread connection Sphere diameter 240cm, 252 rays Ø16mm Flow 2520 ltr / min, pressure 7.8m
