

ROLLER SHUTTER WINDER - ELECTRIC OVERGROUND WITH HOUSING BOX

Περιγραφή

Thanks to a **box-shaped cover** made of **PVC strips** or **exotic wood**, the model housing offers an aesthetic covering of the rolling mechanism, with a universal load capacity of 100 kg.

The mounting kit includes:

- Tubular motor 24V 120Nm with built-in limit switches
- Control box 230/24V
- Housing made of stainless steel 316L
- Shaft made of anodised aluminum $\Phi 125\text{mm}$
- Key switch with 3 fixed positions
- Fasteners, shaft attachment, packaging

The winding system has a 3-year warranty.
