- Version with electric drive possible

### Technical parameters:

- PVC-coated antibacterial polyester fabric, 580g/m<sup>2</sup>
- Tarpaulin is UV resistant
- Temperature resistance from -30° to +70°C
- High-frequency welded edge
- Centrally punched rain drainage holes

between the carrier profiles

- Carrier profiles made of anodized aluminum
- Continuously adjustable straps with stainless steel ratchet
- Anchor pins  $\Phi 6\text{mm}$  in a sleeve  $\Phi 10\text{mm}$  made of 304L stainless steel

## **ΤΕΧΝΙΚΕΣ ΠΡΟΔΙΑΓΡΑΦΕΣ**

**P60104: SAFE COVER STANDARD** The support tubes are located in the edge area above the tarpaulin, are visible and in the middle area below the tarpaulin. The underneath is protected by a special rubber pad to touch the pool in a soft way.

**P60107: SAFE COVER EXTRA TOP** It has flattened aluminum profiles so it is a flat cover with no visible tubes.

**P60105: SAFE COVER TUBE** It has the reinforcing pipes fully covered by a welded fabric.

**P60106: SAFE COVER SEGMENT** It is recommended also for round and oval pools, with the option of individual replacement of cover segments.

**P60108: ADDITIONAL CRANK** with transmission for manually rolling up the cover

**P60109: AUTOMATIC ROLL SYSTEM** for automatically rolling up the cover, with 12V battery, charger, switch and transmission bolster in set.
